U.S. News and World Report listed J.M.U. second in academic quality among 158 colleges and universities in southern and border states in the November 25, 1985 issue. This public recognition for its academic quality is just one example that J.M.U. is finally receiving the support and notoriety that it deserves. More and more people are becoming aware of J.M.U. across the nation. We're finally making our mark in the university "Hall of Fame." Here are some highlights from the past year which have put James Madison University in the minds of people all over America and the world.

SPORTS

Universities are traditionally known for their successful (or not so successful) sports teams. J.M.U. has come to be well-known for quite a few.

Once again, members of J.M.U.'s archery team shot their way into a national title. They placed 2nd in the U.S. Intercollegiate Archery Championships. J.M.U.'s volleyball team also gained recognition by going to the NCAA Division II Tournament for the 2nd year in a row. The women's swim team won the CAA Conference Championship this year. The women's basketball team received recognition for their winning efforts and were ranked 19th in the

Associated Press' national top-20 poll. Even J.M.U.'s cheerleaders got in on the act. In January, the cheerleading squad flew to San Diego to compete in the Universal Cheerleading Association/Ford College Cheerleading National Championships, where they placed 3rd.

Football fans were thrilled each weekend to watch Gary Clark play football for the Washington Redskins. Clark, a former J.M.U. football player, caught and ran his way into the hearts of Redskins fans and put the name James Madison University into the mouths of sports announcers across the nation.

PUBLICATIONS

A lot of information about J.M.U. is conveyed through the many publications put out by the university, and a lot of these publications have received honors and awards which have put J.M.U. in the spotlight. J.M.U.'s campus newspaper, *The Breeze*, was voted the best paper in the state in 1985 by the Virginia Collegiate Press Association. The *Bluestone* was chosen last year to be

Taylor Publishing Company's sample book. Many extra copies were printed and distributed throughout the U.S. The division of university relations had four publications cited for awards by the Council for the Advancement of Education this year. These publications included the women's basketball media guide, the football media guide, the football schedule poster, and a promotional series on the J.M.U. Dance Theatre program. All these publications have reached many people and have spread the good word about J.M.U.

FACULTY

The faculty at J.M.U. is proud of the institution and each member makes his or her contribution to further publicize it. In addition to sharing their knowledge with students, our professors are constantly striving to gain further knowledge, and experience new things themselves. Frequently, teachers from J.M.U. have articles and books published. Members of our faculty also travel to speak and learn at other colleges.

This year, J.M.U. had an especially exciting form of publicity through Dr. Paul Cline, a political science professor here. Dr. Cline ran for the office of 27th District Representative to the Virginia House of Delegates and won! J.M.U. Democrats and Republicans alike were thrilled to have a member of the university become involved in politics.

J.M.U. AID

In the year of Band-Aid, Live-Aid, and Farm-Aid, J.M.U. did its part to help the needy. Heavy rains last fall caused major floods all over the Shenendoah Valley and in West Virginia. J.M.U. organizations quickly took action to help those whose houses had been washed away in the flood. Many people donated both time and money to aid flood victims. The S.G.A. started a program called "Adopt-a-Family" where organizations could sponsor a particular family to provide them with supplies they specifically needed.

AROUND THE WORLD

The scope of J.M.U. has far exceeded the boundaries of the North American

Helms

continent. The university expanded its semester abroad program this year to include Paris, France. Each semester, approximately 60 J.M.U. students have the opportunity to visit London and Paris and tell people all about James Madison University.

FINE ARTS

Through the fine arts and communication programs here, J.M.U. has become very well known. Various music ensembles like the Jazz Band and the Madisonians provide entertainment for a variety of people, and have the opportunity to travel and show people what J.M.U. is like. And of course, there's "Virginia's Finest", — The Marching Royal Dukes — one of the best marching bands in the U.S. They're invited to play all over the nation, and certainly contribute to the university's good image.

Students also have the chance to be in the public eye through the J.M.U. Video Network. "J.M.U. Today", and "Profiles" provide information to the public about the events and people that make

up J.M.U. and the surrounding area. Each week, 20,000 people tune in to these shows to learn more about the university and community. People can hear J.M.U. through WMRA, a student-run radio station. Community affairs, music, and sports events are heard seven days a week by people all over the Shenandoah Valley.

GROWTH

J.M.U. is growing bigger and better each year. This year a new facility, the Phillips Center, was added to our campus. The Phillips Center contains a new, updated version of Dukes Grill, and a ballroom for various functions. A 24-hour convenience store, Mr. Chip's, was opened to offer students a close, convenient option to other stores. And the growth never stops — renovation, additions, and talks of new buildings and facilities continue. The university is changing with the times and growing into a major, influential university.

Dr. Carrier wants J.M.U. to see the number one slot in U.S. News and World Report's poll next year. We're on our way, Uncle Ron!!

World News

The war in the Mid-East continued in 1985. A distraught Moslem man hugs his son moments after they survived a car bomb explosion outside a West Beirut restaurant in late August. They are shown being hurried away from the carnage by another man as cars burn in the rubble-strewn street.

The space program moved ahead. Space walker James van Hoften stands tall on the end of the robot arm of the Space Shuttle Discovery after successfully launching the repaired Syncom satellite in September.

President Reagan, with his wife Nancy, gives the A-Okay sign from his hospital window in July after undergoing surgery to remove a cancerous tumor from his lower intestine. The 74-year old president was back on the job within weeks after his operation.

Ceremonies were held at various times during the year at the Vietnam Memorial in Washington to commemorate the tenth anniversary of the fall of the Saigon government in Vietnam. The Vietnam Memorial is inscribed with the names of more than 58,000 dead or missing soldiers from the Vietnam war.

A series of devastating earthquakes rumbled through Mexico City in September and the death toll was in the thousands. Few in the metropolitan area of 18 million escaped the effects of the first quake, which registered 8.1 on the Richter scale; or the second quake, which measured 7.5.

A Trans World Airlines jet with 145 passengers and eight crew members was hijacked in Athens, Greece, in June. The Shiite hijackers took the plane to Beirut, then to Algeria and then back to Beirut. Most of the hostages were released within days but the remaining 39 hostages were held for 17 days. One American hostage was killed.

Four Palestinian terrorists hijacked the Italian cruise liner Achille Lauro while on a Mediterranean cruise. One American was killed. After the ship was released the Egyptian government agreed to return the hijackers to the PLO. However, the hijackers were intercepted by American jets as they were flown out of Egypt and returned to Italy to stand trial.

Riots were an almost daily occurrence in South Africa as blacks protested Apartheid. In this photo, a white man runs from a jeering group of stone-throwing blacks in downtown Johannesburg as widespread violence continued to breakout throughout the country.

The explosion of the Space Shuttle Challenger which killed all seven crew members was the first in-flight disaster in 56 manned U.S. space missions. Christa McAuliffe, a high school teacher from Concord, New Hampshire, was among the crew on the fatal flight.

JAMES MADISON UNIVERSITY — SPREAD THE WORD!!! We're all so proud of this school and all it has to offer, and we've tried to convey that pride in this publication. Not only in the tradition and growth, but the creativity, the color, and the vibrancy of the institution and the people who go to school here. We think this book reflects all of these things. Hopefully, somewhere in this publication, you've picked up that feeling.

I've had the honor of serving as editor for two years now, and have watched books develop and people develop. I didn't do it alone, though. There are several people who deserve recognition for their efforts.

First, I have to thank my family, especially my mom, for all the encouragement and support I've gotten ever since I can remember. I want to thank Lelia and George for taking me to dinner, having patience, letting me call at odd hours of the night (morning), and offering creative input. You're both great!

Special thanks goes to the whole Bluestone staff — I'm very proud of the book we produced and all of the hard work that was put into it.

— Thanks for staying up all night to help with the book, for lifting all the heavy stuff, and for being my best friend.

Amy — Thanks for being so organized and for talking and understanding.

— Thanks for entertaining me with "real-life" soap operas!

Stephanie — Thanks for always being so cheerful when the chips were down!

Donna — Thanks for filling me in on all the gossip!

— Thanks for stepping in and doing a great job!

Shippy, Dee, Larry and all the photographers — Thanks for putting up with last minute assignments and print deadlines!

To the whole staff — Thanks for two of the greatest years of my life — the friendships and fun times well outweigh all the problems we encountered. And, Taylor's using our book as the sample again. AWESOME! Most importantly, we've done more than our share to "spread the word" about JMU and promote the university.

Wish the best of luck to all of you. You all deserve the very best! I love you all!! Chrys Peterson, Editor

The 1986 *Bluestone*, volume 78, was published by Taylor Publishing Company of Dallas, Texas. Sixty-three hundred copies were printed, nine by twelve inches. 80 lb. Westvaco Sterling Litho II double coated enamel paper and Sinclair-Valentine warm black extended lithograph ink were used throughout the book. The cover is an original staff design in collaboration with George Olson of Taylor Publishing. The cover is a 4-color lithograph cover with a Mylar laminated coating. The two-design endsheets are 4-color and were designed by the editor. Process color is used on all spot color and 4-color pages. All headlines were set by Taylor Publishing using various type styles and sizes. All text entry was computerized — submitted on software from an IBM personal computer.
